**ABSTRACT**: In today's world, many things are carried out digitally and many are adopting. There are some small MSME entrepreneurs who need system or software to maintain their goods in inventory. Our inventory management system will help them their products to maintain through their computer system. An inventory system's main function is to keep track of your products and supplies. When you buy inventory, you need to keep track of when you bought it, when you sold it, and how much you have on hand. It also tells you where your inventory is. An inventory management system can aid in the administration of your company's inventory and stock items, allowing you to keep track of where your assets are located and how much they're worth. The technology may also analyse your company's inventory requirements and automate your ordering.

KEYWORDS: Inventory, Inventory Management System, Goods system, Goods Management System.

# I. INTRODUCTION

IMS keeps track of objects or materials of the store. Properly managing inventory is essential to the success of every entrepreneurs. IMS provides information to efficiently manage the flow of materials, effectively utilize people and equipment and communicate with customers. In the current situation of India few stores are automated and some are semi-automated and many are still having manual system for keeping the record of inventory. In Hand written inventory system is quite time consuming and tedious Semi automated system is also not well organized.

# **II. METHODOLOGY**

# Registration

User can register as new user by registering essentials data shown on figure 1 in registering form. After that user can login as shown in figure 2.

# **III.RESULTS AND DISCUSSION**

#### Software technologies used

- 1. Eclipse
- 2. MySQL
- 3. Chrome Browser

#### Features

- 1. Free to use
- 2. 24x7 available for users
- 3. Digital platform

#### Advantages

- 1. Easy to use for everyone.
- 2. Cross platform website, so it will work on laptop and smartphone.
- 3. Provides platform for entrepreneur where they can get knowledge and experience.

#### **IV.CONCLUSION**

We have successfully developed "IMS" (a free Inventory Management website). The aim of our website is to provide a free digital platform for entrepreneur. IMS provides various functionality to its entrepreneur like they can check product and customers quires. After deployment of the project IMS, we believe that our website will help many entrepreneur to carry on their daily inventory records.

# ACKNOWLEDGEMENTS

It is great pleasure for me to acknowledge the assistance and contribution of number of individuals who helped me in developing "IMS (Inventory Management System)". First and foremost, I wish to record my gratitude and thanks to Mr. Pratik S Chopade (Project Coordinator) for his enthusiastic guidance and help in successful completion of Project work. I express my thanks to Prof. Mrs. S. S. Gaikwad (Principal), Mr. P.S. Chopade (Head of Computer Department) and Mrs. N. J. Mahale (Guide) for their valuable guidance. I am also thankful to Mr. Jaya Shetty and Mr. Girish Tank
